U.S. Patent and Trademark Office PTOL-37 (Rev. 1-04) 1. Claims 1-27 are allowed.

2. The following is a statement of reasons for allowance:

Applicant's claimed invention is deemed allowable over the prior art of record as the prior art fails to teach or suggest generating simulation signals from a design simulation; applying a transaction rule to recognize a first set of the simulation signals as a transaction; applying an atomic rule to recognize a second set of the simulation signals; applying a non-atomic rule to recognize a first set of atomic rules; and executing an action with the transaction rule. Applicant's claimed invention is additionally deemed allowable over the prior art of record as the prior art fails to teach or suggest defining a transaction rule, which is associated with a first action, by non-atomic rules, each of which is associated with a second action and is defined by one or more atomic rules, wherein each atomic rule is associated with a third action and is defined in terms of one or more simulation signals; and executing each of the first, second, and third action to perform user-defined functions.

## Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2125

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Carlos Ortiz-Rodriguez whose telephone number is (571) 272-3747. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Leo P. Picard can be reached on (571) 272-3749. The central official fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the general information number at 800-786-9199.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
